Student's position

### Knowledge

Was the student's knowledge of calculus sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's knowledge of logic, set theory and combinatorics sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's knowledge of topology, geometry and algebra sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's knowledge of coding, algorithmics and numerical methods sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's knowledge of probability theory and statistics sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's knowledge regarding copyright, conducting an economic activity and ethics in science and business sufficient for the internship?

No       Rather yes       Yes       It was not needed

### Skills

Was the student's ability to solve differential equations and calculate integrals and derivatives sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's ability to code and use databases sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's ability to use some software for numerical computation and statistical analysis sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's ability to develop statistical and stochastic models sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's ability to perform statistical data analysis sufficient for the internship?

No       Rather yes       Yes       It was not needed

Was the student's ability to prepare a documentation and an oral presentation sufficient for the internship?

No       Rather yes       Yes       It was not needed

### Social skills

What in your opinion is the student's awareness of the training and certification opportunities?

Low       Medium       High       Impossible to tell

What in your opinion is the student's awareness of the importance of reliability and ethical behaviour at work?

Low       Medium       High       Impossible to tell

What in your opinion are the student's teamwork skills, communication with coworkers and customers, ability to undertake obligations and meet deadlines?

Low       Medium       High       Impossible to tell
